01 ABOUT THE DEVELOPER

The tāmeer philosophy does not only apply on the business aspect of the company; it's rather primarily instilled in the DNA of tāmeer.

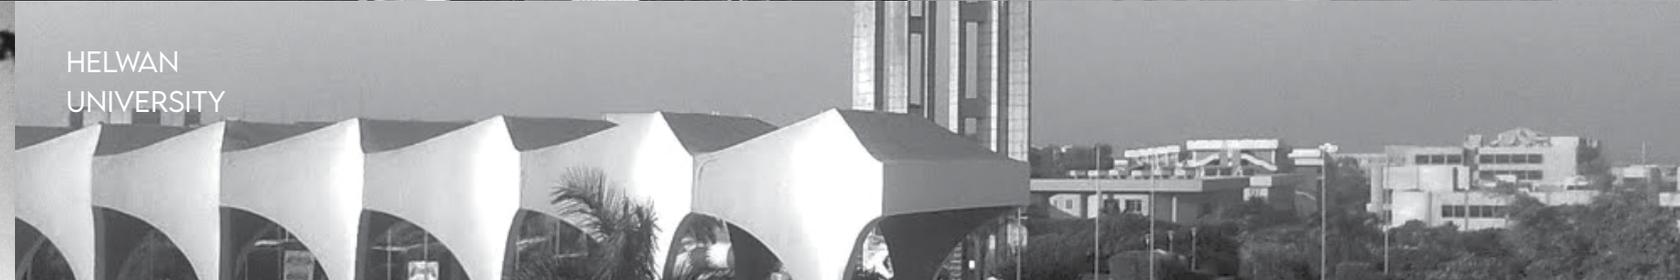

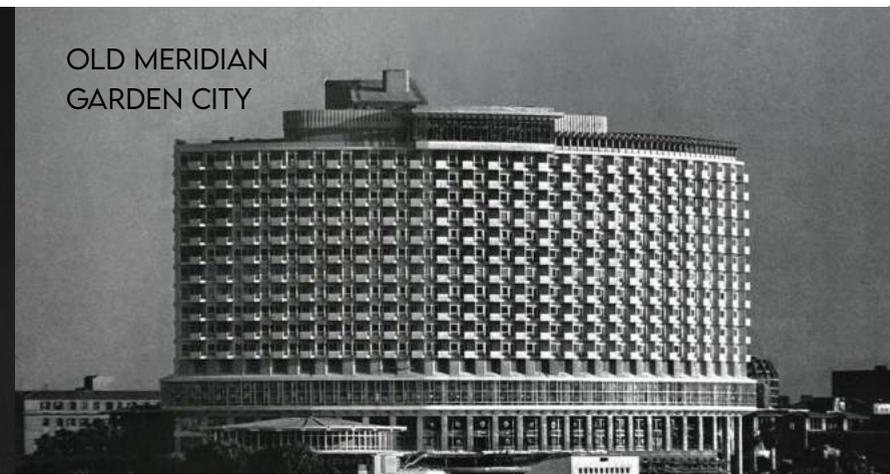

LET'S GET TO KNOW THE DEVELOPER

ABOUT TAMEER

tāmeer has, throughout its reputable history, endeavored to build communities rather than plain structures, concepts rather than dull spaces, it has sought to create life between buildings and stories between walls.

LANDMARKS

NEW PROJECTS

As interest in community living & working options further from the congested downtown of Central Cairo increases, we are well positioned to expand into new, strategically-located areas in 6th of October and New Cairo neighborhoods.

Our access to the land banks gives us an edge in developing mixed-use projects in these popular destinations, and our existing developments in these areas give our brand a unique prominence.

COMMERCIAL

THE BUSINESS LOUNGE

Part of AZAD New Cairo. The Business Lounge is a boutique business park that offers a variety of space requirements types to meet various corporate needs.

UBL

Located in New Cairo adjacent to The American University in Cairo. It is a business district that will harbor office space to established young and innovative enterprises.

RESIDENTIAL

AZAD NEW CAIRO

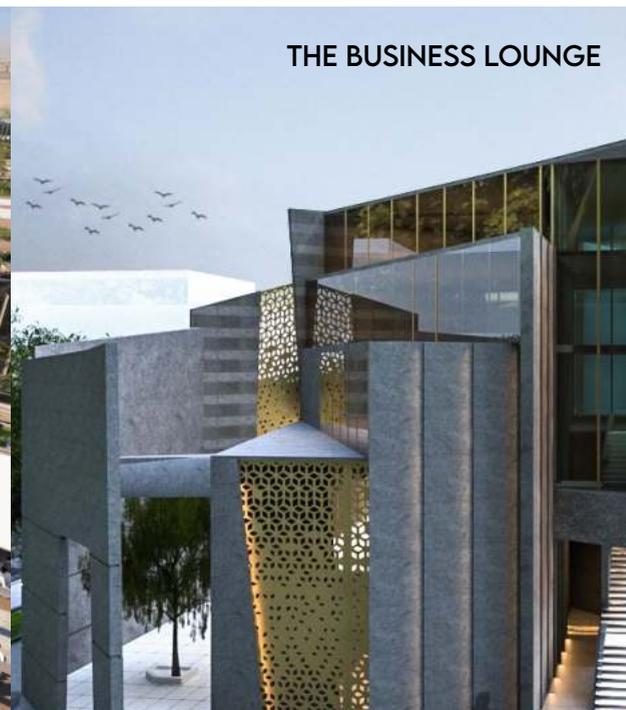

Located in New Cairo adjacent to the AUC. Features AZ Homes, designed to meet the needs of student housing and Azad Walk, the newest and freshest zone within AZAD VIEWS. A friendly and inclusive community that celebrates connectivity.

DIAR I & II 6TH OF OCTOBER

Located in the fast-developing northern extension of 6th of October.

02 URBAN BUSINESS LANE LOCATION

Urban Business Lane is located in a very lively and dynamic spot in New Cairo right next to The American University in Cairo, where everything around it is up and running.

LOCATION IS EVERYTHING

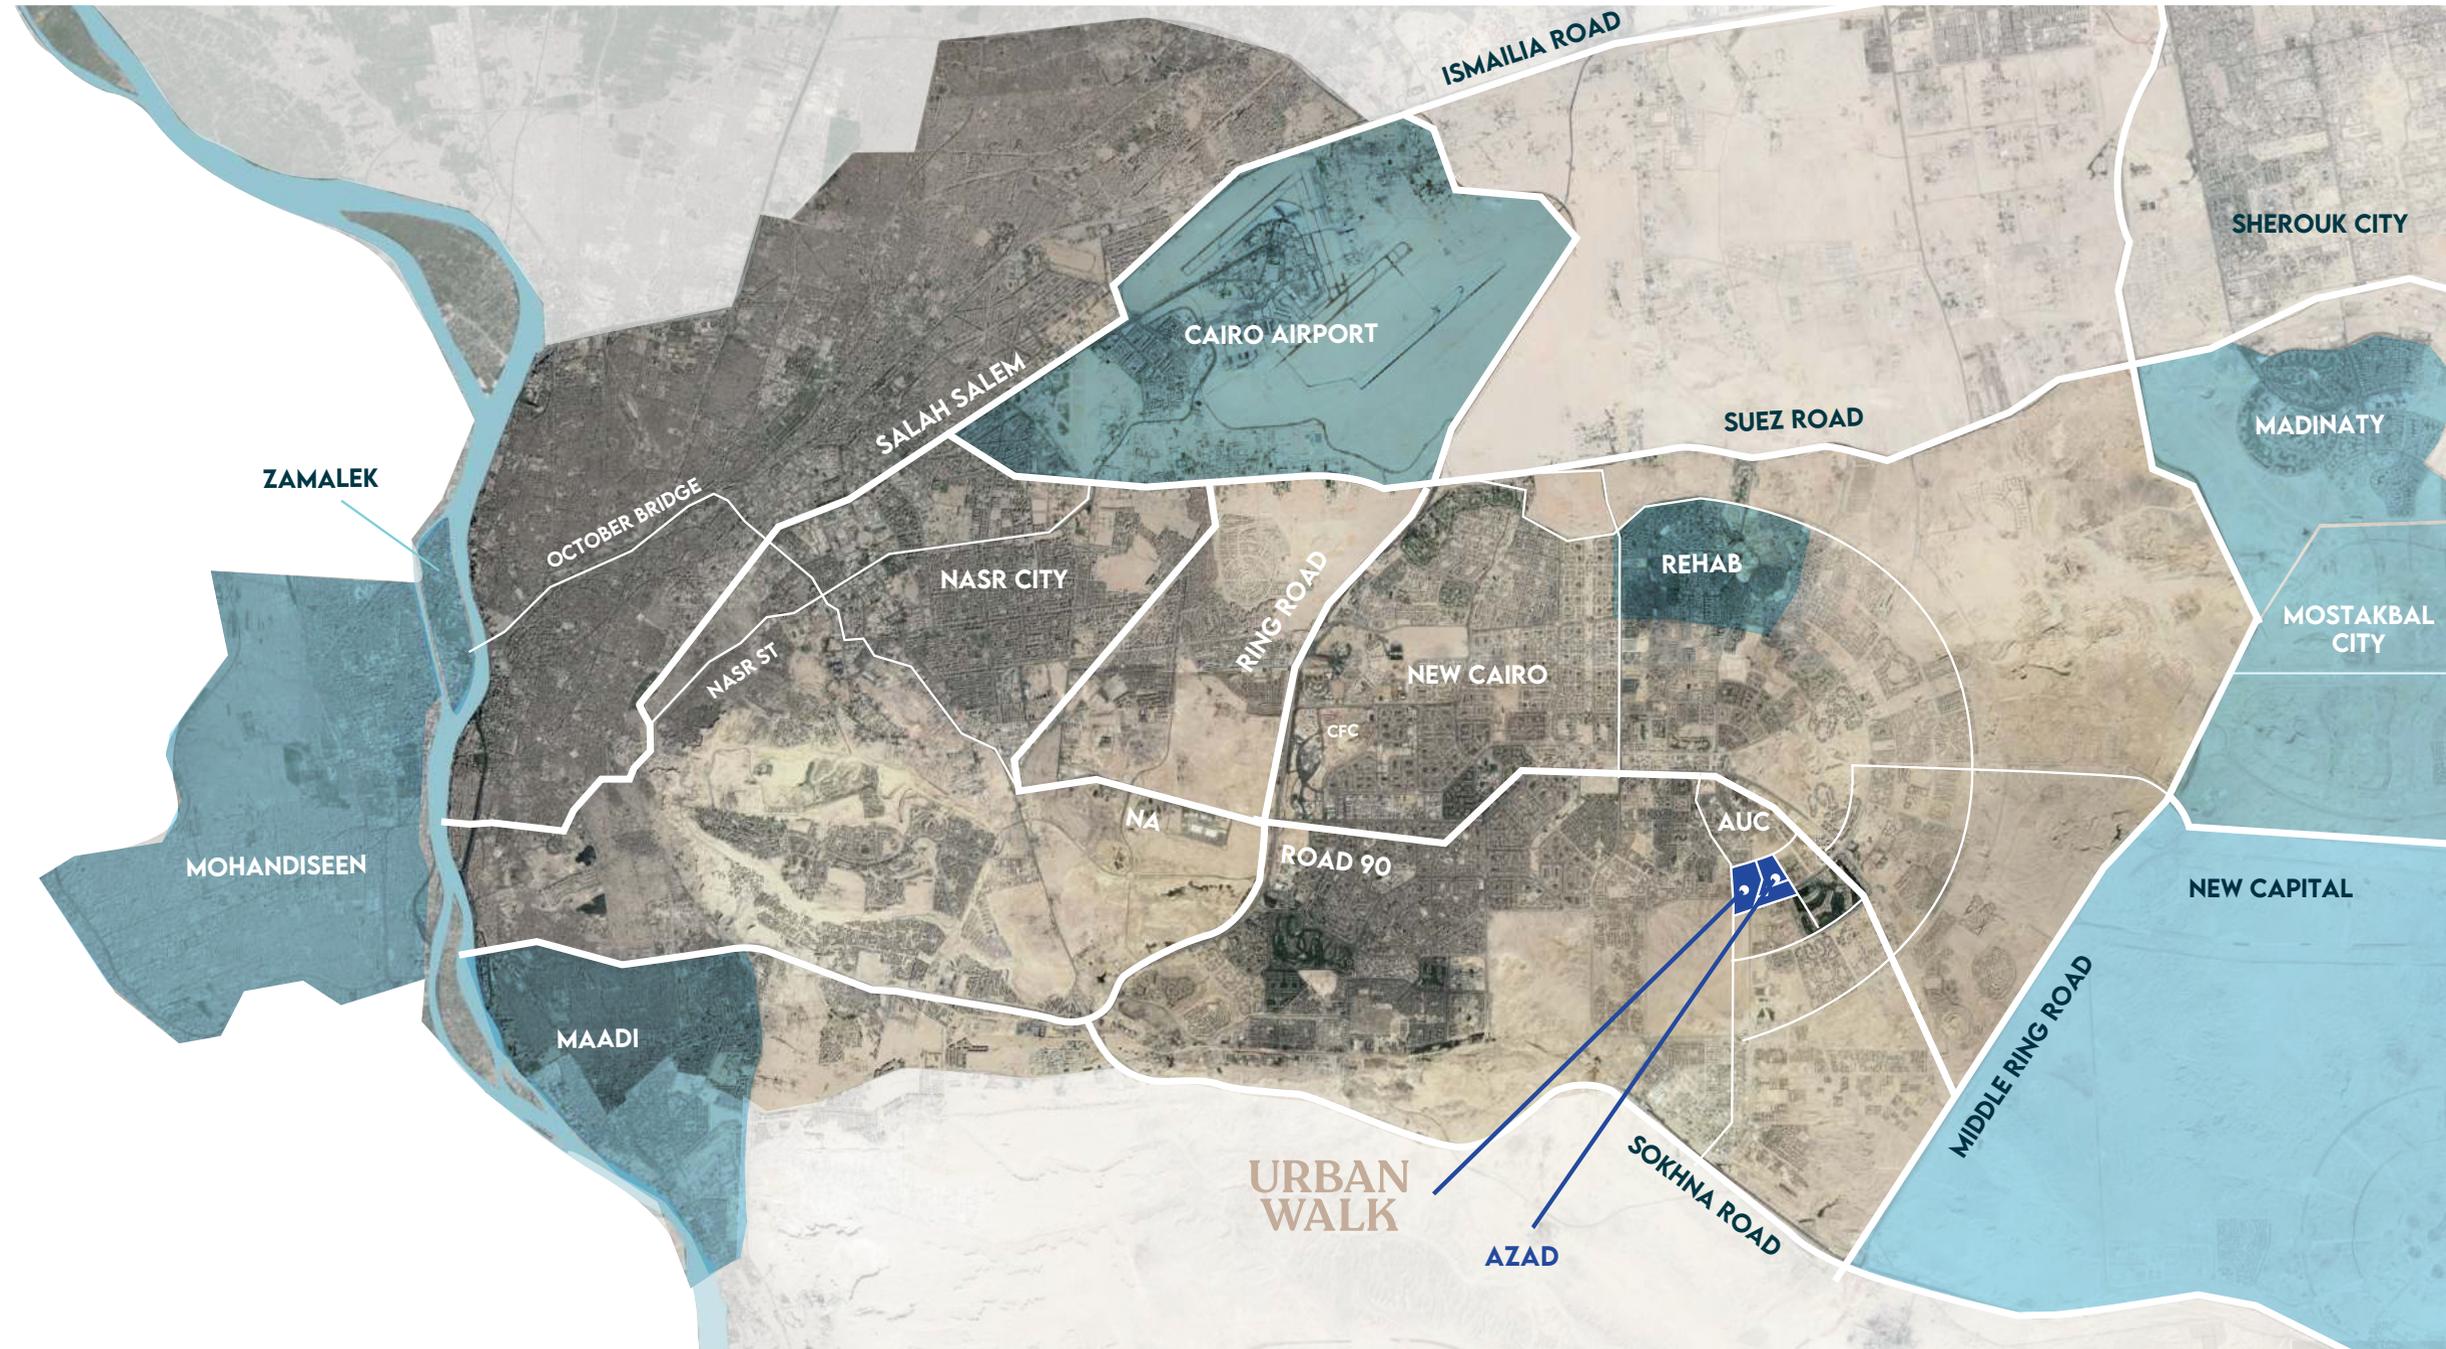

LOCATION

—
30 minutes
from Heliopolis

—
20 minutes
from New Capital

—
30 minutes
from Maadi

PROJECT ATTRIBUTES

—
Located within a dynamic emerging neighborhood.

—
Highly accessible to students, neighboring residents, commuters and visitors.

—
The only un-gated commercial project with direct access to the streets with proper security personnel and checkpoint entrances all around.

—
Across the street from the American University in Cairo Campus from the northern boundary.

—
Surrounded by up and running developments, from which it will benefit.

—
Adjacent to AZAD, an exclusive residential compound developed by tāmeer.

STRATEGICALLY LOCATED IN THE CENTER OF NEW CAIRO

15 min from The Ring road & Cairo Intl. Airport
Walking distance to The monorail station

UNDERGROUND PARKING

**UP TO 3,000
UNDERGROUND
PARKING CAPACITY**

This is a mixed-use project and since parking peaks are not necessarily going to happen at the same time, we envision that public users may be able to utilize different portions of parking at different times of the day/week. For this purpose, we assessed a parking layout that works with the structural grid of upper buildings, and allows for selective underground connections between the Leisure, Enterprise and Residence parking areas in order to optimize alternative use of car parks.

WORK BEYOND THE WALLS

U URBAN
BUSINESS
LANE
B L

URBAN BUSINESS LANE is not a project. It's a neighborhood with a unique identity. Rather than having the appearance of fixed volumes, the buildings integrate into their DNA the concept of motion. Walking the pedestrian alleys of URBAN BUSINESS LANE offers the experience of visiting a real city, combining diversity and unity, richness and simplicity, convenience and esthetics.

This district is dedicated to commercial office space that will be targeting large companies but also start ups, entrepreneurs and creative industries. It is a purpose built office park with multiplicity of flexible spaces and will benefit from its immediate adjacency to AUC and to residential, hospitality, retail and entertainment activities in the project.

Urban life between its buildings is reinforced with uninterrupted ground floor retail and F&B and the extensive use of public space is strengthened with abundant shaded outdoor areas that are either framed by the building or protected with proper shading devices.

UBL gives you the opportunity to work from your office or venture-out in the wide open fields of The Park that features outdoor working areas surrounded by scenic views.

04 SERVICES

The project has many facilities accessible to everyone with high emphasis on special needs inclusion, from public areas to office spaces, and you'll always feel secured with the presence of security guards and CCTV.

FACILITIES & AMENITIES

BUILDING DESCRIPTION

- Ground + 5
- Ground Floor Utilization: Retail
- Handicap Access Points

BUILDING STRUCTURE

- Reinforced concrete structure
- Waterproof insulation for basement floors

BUILDING FACADES

- Top notch finishing materials
- Fully transparent building envelope with heat gain resistance (U value)

INTERIOR FINISHES

- In line with international standards and designed with high-end technological advancements
- Fully fitted entrance lobby
- Fully finished common circulation corridors with tiling, painting and gypsum false ceiling, etc...

ELEVATORS

- Imported "Room-less" elevators in line with international standards
- Back-up safety procedures in case of power failure

LANDSCAPING

- Inner commercial and pedestrian-friendly street
- Several squares overlooking the central park
- Large event plaza
- Shaded and semi-shaded outdoor areas
- Outdoor working and meeting space

PUBLIC AREAS

- Public restrooms available on all floors with high-quality finishes
- Garbage chute provision on all floors
- Kitchenette available on all floors with equipment
- Shared meeting room available on 2 floors

LOBBY

THE SHARED HUB & WORK PODS

We no longer accept that business needs to be conducted in the antiquated enclosed four-wall office space.

Venture out into the wide-open fields of The Park which features an outdoor working area surrounded by scenic views and also features a series of recreational activities.

FACILITY INCLUDES

- Shared Work Facility
- Meeting Rooms
- Conference Room
- Brainstorming Room
- Play Area
- F&B outlets
- Lounge Areas

THE GRAND LAWN

In addition to having facilities that enable you to work beyond your office boundaries.

The grand lawn is located right across UBL and offers various activities in a wide open field equipped with all required technical amenities to run an event smoothly.

Surrounded by natural views and shadings which compliments the overall experience.

It is the ideal space for hosting events of different nature, exhibitions, bazaars and many other activities related to both business and lifestyle.

SUSTAINABILITY
IS EVERYTHING

THE INTEGRATION OF SUSTAINABILITY IN AN ENTERPRISE DISTRICT SUCH AS UBL THAT FEATURES A MASSIVE PARK CAN BRING NUMEROUS BENEFITS.

-
- It can improve the overall quality of life for employees, visitors and residents by creating a healthy and pleasant environment.
 - Sustainable features like energy-efficient buildings can also contribute to reducing carbon emissions and improve air quality.
 - In addition, the presence of the park can provide opportunities for outdoor recreation, relaxation, and social gatherings, promoting physical and mental wellbeing for the community.
 - Ultimately, a sustainable enterprise district with a massive park can enhance the reputation and attractiveness of the area, drawing more businesses and growing the community.

HEAT REDUCTION

- Planters, treelined streetscapes and building masses designed to shade paved areas and public spaces
- Underground parking with easy access from main roads
- Green roofs provide heat insulation, acoustic dampening and stormwater management

ENERGY EFFICIENCY

- Maximum daylight benefits due to curtain wall facades and glazed screens
- Low-E glass facades for heat reflection and optimized energy consumption
- Partial screens provide shading elements for the western and eastern facades
- Fiber Optics Network allows for advanced technologies in metering systems, CCTV and security systems and energy saving mechanisms

WATER EFFICIENCY

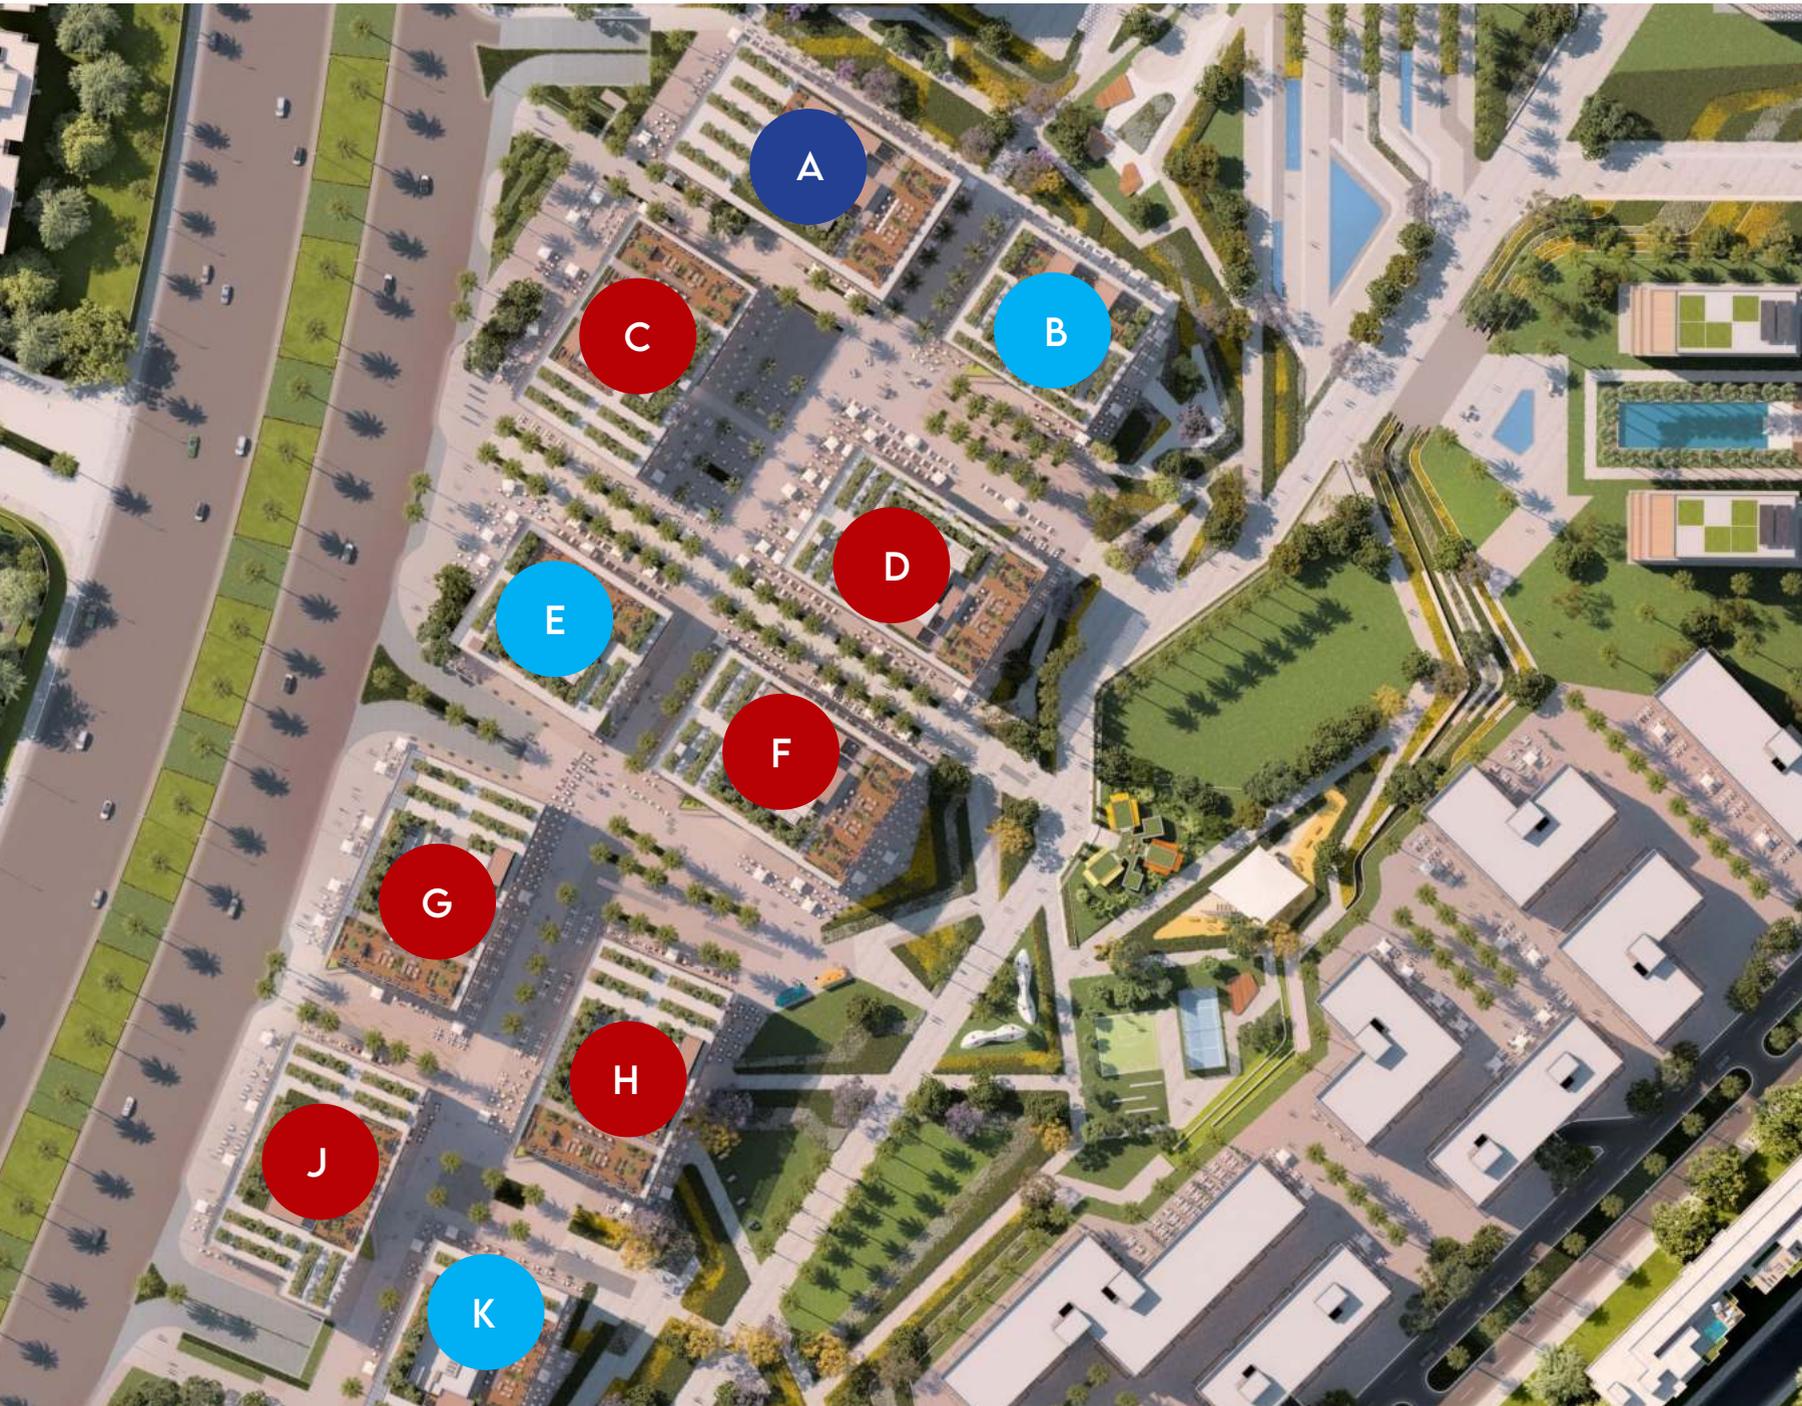

- Water tanks allow for a back-up system in case of water shortage
- No turf areas lead to reduced water consumption

ECOLOGY

- Enhancing the existing native vegetation through diversity
- Landscape design that responds to thermal and comfort needs
- Historic Resources Preservation and Adaptive Reuse of petrified wood logs found on site
- Robust landscape that requires relatively low-level maintenance
